

# TYRANNY BY THE CROWD

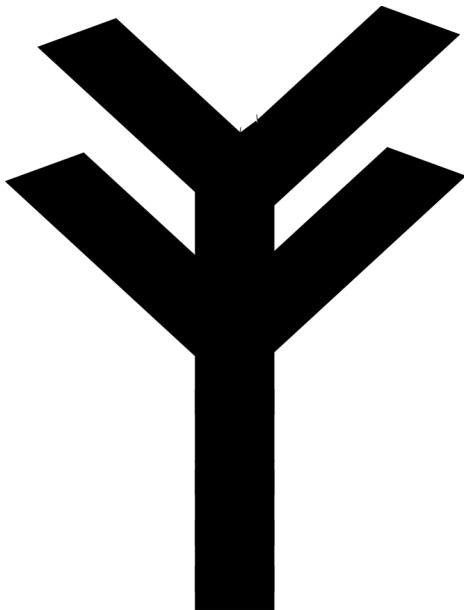

The Crowd determines what you can know. Undermen fear personal death more than they want to do what is right. They make it illegal to offend, hurt, kill, or disagree with any person - no matter how crazy that person is. This prevents us from making the right decision, because *someone will be offended*. Undermen inject pacifism and self-obsession into every aspect of society. *The rule of the Undermen is to make the individual a King, because then the superior numbers of the Crowd will drown out leaders*. The Undermen are both Republicans and Democrats, rich and poor, young and old, black and white. Overpopulation, global warming, mindless self indulgence and lack of culture are all the work of the Undermen.
